

Foam & Resin Cleaner

TLS-77

Removes Urethane Foam

Foam & Resin Cleaner TLS-77 was designed to remove urethane foam from equipment and tools. Blended for consumer safety without sacrificing performance.

Penetrates & Softens

Unlike methylene chloride based products that evaporate quickly, Foam & Resin Cleaner TLS-77 remains on the surface to penetrate and soften the foam. Sufficient time should be allowed for material to penetrate the surface before removing the loosened foam.

Safe

Foam & Resin Cleaner TLS-77 does not contain halogenated hydrocarbons, petroleum hydrocarbons, or flammable ingredients such as alcohols or ketones.

CLEANERS

Technical Data

appearance	clear liquid thick liquid
odor	mild
specific gravity	1.075
rinsability	complete,
normal working conc.	use full strength
normal working temps	ambient

Packaging Options

5 gallon pail
55 gallon drum
330 gallon tote tanks

Other Available TLS Products

ID 240
Industrial strength cleaner/degreaser

Shur Cool® 3830
Non-foaming full synthetic coolant for grinding, milling, drilling and other metalworking operations

Shur Cool® 4045
Heavy-duty semi synthetic metalworking fluid
