

LUBRICANTS

SLIDERITE SILICONE 392

Water Based Lubricant

Sliderite Silicone 392 is a water based lubricating agent good for use in the fabric and foam industries. It can be used on foam cutting blades, sewing machine needles, or any application where a non-staining lubricant is needed

Advantages

- Water based liquid
- Completely odorless
- Excellent Operator Acceptance
- No Ozone-Depleting Chemicals
- Very Thin But Effective Coating

Application

Apply directly to area where lubrication is needed. Can be sprayed or wiped.

Technical Data

chemical composition	water based
appearance	milky liquid
odor	odorless
specific gravity	1.000
flash point	none
maximum solubility	complete
normal working conc	full strength
normal working temp	ambient

Packaging Options

5 gallon pail
55 gallon drum
330 gallon tote tanks or Bulk Delivery
